FOR IMMEDIATE RELEASE

Nightly Interstate 80 Detours Completed

Colfax – The California Department of Transportation (Caltrans) announces the night closures of Interstate 80 (I-80) are complete. The last closure on I-80 between Colfax and Secret Town Road was completed at 7 a.m. this morning.

The nightly detours were necessary to facilitate work on the \$70 million dollar Gold Run III construction project to repair Interstate 80 between Magra and Colfax. Work included overlaying the mainline with new asphalt concrete, replacing the median barrier, upgrading the drainage system and improvements to bridges throughout the project boundaries.

To assist motorists traveling over the Sierra Nevada Mountains on I-80, Caltrans developed the GetAcross80.com public awareness campaign. Citizens are encouraged to call 1-877-362-8080 for recorded information or log onto www.getacross80.com for travel information, project descriptions, sign up for email alerts, view live traffic camera and read the latest news on the Sierra Repair Projects.
